Summary

I am a B.Tech CSE (AI & ML) student with a strong passion for Artificial Intelligence, Cybersecurity, and Web Development. I possess skills in Python, C, and various modern technologies and have hands-on project experience in developing AI-based applications. I am eager to apply my knowledge to solve real-world problems and contribute to innovative projects

Education

Sirsaganj Public School	Sirsaganj
12th Grade - (75%)	04/2022 - 05/2023

GLA University	Mathura
B.Tech CSE in AI & ML Specialization – (CPI : 7.21)	08/2024 - 05/2028

Certifications

 AZ-900 Microsoft Azure Fundamentals certificaiton	 AI-900 Microsoft AI Azure Fundamentals Certification
--	---

Skills

 Programming Skills Python, C, Java, Data Structure & Algorithms	 Development Skills Artificial Intelligence, Machine Learning, Web Development, Cybersecurity, Django	 Tools & Soft Skills Git, GitHub, Microsoft Azure, Problem-Solving, Teamwork, Quick Learner
--	---	---

Projects

Movie Search Web Application	04/2026 - 05/2026
------------------------------	-------------------

Implemented dynamic search and user-friendly UI- <https://movie-app-livid-two.vercel.app/>

- Built a web app to search movies using real-time API data
- Integrated REST API for fetching movie details such as ratings, posters, and descriptions

Education Article Generator	09/2023 - 10/2023
-----------------------------	-------------------

Project aimed at automating educational content creation- <https://l1nq.com/uext3w3>

- Built Project generating structured educational articles automatically with AI
- Generated structured and coherent educational content

AI Voice Assistant	01/2023 - 02/2023
--------------------	-------------------

An AI voice assistant similar to Alexa designed for ease of use and access to information

- Built AI chatbot using NLP for student query handling
- Implemented features such as Wikipedia search, weather updates, email automation, and a GUI interface

EduBot	07/2023 - 08/2023
--------	-------------------

Chatbot developed for comprehensive academic support for students

- Developed NLP-based system for automated article generation
- Enabled real-time, context-aware responses
